(All students must be eligible upon registration. All registration fees will be paid by the archery team. Upon registration, times for flights will be announced. If the student is registered, and does not attend, parent will be responsible in refunding the registration fees to the archery program. Transportation will be provided if needed. We try to get late morning/midday flights. Archers only need to attend one state qualifier to be qualified for state. Archers have the ability to shoot both bullseye and 3d (target animals: bear, turkey, coyote, antelope, deer, bighorn sheep) we encourage them to do both, it is entirely their choice. Bows and arrows will be provided by the coaches, who will be attending with the archers. If the archer has their own equipment, please bring it. (Parent participation/support is highly encouraged) Please contact coaches, if you have any questions or concerns:
